Position Sought: Software Developer

Career Objective

To obtain a Software Developer role that allows me to utilize my strong organizational skills, technical education, and passion for problem-solving to contribute to an organization's success and foster mutual growth.

Education

Master of Computer Application (MCA) Center for Computer Science and Information Technology, Vadakara Calicut University | 2023 – 2025 (Pursuing)

Bachelor of Computer Application (BCA) College of Applied Science, Nadapuram Calicut University | 2018 – 2021

Projects

Trend Fit (Academic Project)

Developed a machine learning-based fashion recommendation platform.

Used K-Means clustering to group users based on skin tone and body measurements.

Implemented Convolutional Neural Networks (CNNs) to visualize outfit combinations.

Job Portal (Mini Project)

Created a job listing and search platform using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Designed for a seamless user experience connecting job seekers with employers.

Easy Voting System (Academic Project)

Proposed a secure and accessible online voting platform in response to pandemic-related restrictions.

Designed to maintain democratic participation during crisis situations.

Technical Skills

Programming Languages: Java, Python, C

Web Development: HTML, React.js, Node.js, Express.js

Database: MongoDB

Tools & Technologies: Git, Visual Studio Code
